SUMMARY REPORT

Industrial visit has been arranged to Udangudi Supercritical Thermal Power Plant (USTPP), Kallamozhi, Thoothukudi for all the II, III, IV Year Civil Engineering students on 01.10.2022.

The trip to USTTP started from our campus at 5.10 a.m. Students boarded at Natham Bus stand at 5.30 a.m. At 6.45 a.m. students boarded near Omni bus terminal at Madurai. Students had their breakfast in Aruppukottai by 8.15 a.m. and started towards USTPP at 9.05 a.m. and reached the construction site of Udangudi Supercritical Thermal Power Plant (USTPP), Kallamozhi, Thoothukudi at 12.10 p.m.

USTPP is a 2x660 MW, Stage-I Thermal power plant. It is funded by Rural Electrification Corporation limited. Construction work is being executed by Tata Consulting Engineers private limited. Er. G. Vijayakumar, Senior Manager of Construction of USTPP, Phase –I gave presentation about USTPP and the ongoing construction of this project. He explained the layout, plan and proposed energy to be generated in thermal power plant. He summarized the process to be followed for demineralizing sea water in the water treatment unit.

Er. T.V. Siva Sankar, Senior Manager gave his detailed presentation about safety and quality management followed in the project. He explained the project management process and how the audit was performed in the site.

Er. C. Ram Mohan, Deputy General Manager gave safety instructions to be followed by the visitors and he took us to the construction site of Sea water conveyance system and coal jetties constructed for USTPP. He explained how they laid pipelines for conveying sea water to water treatment unit and construction of demineralization unit.

The students interacted with the officials and got clarified their doubts. After field visit, the students started from the site at 4.15 p.m., had their refreshment in Aruppukottai at 6.30 p.m. and reached our campus at 10.15 p.m.

Outcome:

Students got more technical information to enhance their knowledge on construction of thermal power plant, process followed for demineralizing sea water & generation of electrical energy from heat energy, construction of conveyance system for sea water and coal.

Sir,

Sub: Permission for an Industrial visit to Pannaipatti Water Treatment plant - Reg.

NPR College of Engineering & Technology is one of the premier institutions in South Tamil Nadu situated near Natham in Dindigul District. The institution was established in 2008 by Titan Educational Trust with an exalted aim of uplifting the rural students to excel in the field of Engineering and Technology.

As a part of the Anna University Curriculum, our Civil Engineering students need to visit water Treatment plant, Pannaipatti to enhance their knowledge in Civil Engineering related with water and wastewater supply Engineering. In this regard, a batch of 56 students with 3 faculty members wishes to visit water treatment plant on 21.03.2023. Kindly consider our request and give permission on 21.03.2023.

Thanking you

FEEDBACK SUMMARY

Industrial Visit to Water Treatment Plant, Pannaipatti, Theni

SUMMARY REPORT

Industrial visit has been arranged to water treatment plant, pannaipatti, Theni for all the II, III, IV Year Civil Engineering students on 21.03.2023. The trip to water treatment plant started from our campus at 9.15 a.m. with 43 students and reached the plant at 11.15 a.m. Initially Mr.R.Kathiresan, Lab instructor explained about the treatment process.

This water treatment plant has 6 MLD capacity and was under the control of Madurai corporation and drinking water is supplied to Madurai, Dindigul, Virudhunagar and Theni districts through this plant.

After visiting the plant, our students can able to know the following important matters after visualizing the systems and process directly. Water may be treated differently according to the quality of the source of water either surface water or ground water that enters the treatment plant.

Public drinking water systems use different water treatment methods to provide safe drinking water for their communities. They use a series of water treatment steps that include coagulation, flocculation, sedimentation, filtration and disinfection.

Outcome:

Students got more technical information to enhance their knowledge on water treatment process. After visiting treatment plant students were able to get more ideas about treatment process.

Industrial visit to Construction of Terminal Building at Tiruchirappalli Airport

SUMMARY REPORT

Industrial visit has been arranged to the construction of Terminal Building at Tiruchirappalli Airport for the II, III & IV Year Civil Engineering students on 13.04.2023. The trip to airport was started from Dindigul at 7.00 a.m.

Students boarded from NPRCET at 8.00 a.m. They had their breakfast in Natham by 8.15 a.m. and reached airport at 11.15 a.m.

During the visit one Technical Assistant explained the construction of terminal building. He highlighted the following points to the students: Due to the consistent increase in the air traffic, the current integrated passenger terminal building with a total floor area of 11,777 m² (126,770 sq ft) to handle 470 peak-hour passengers has become insufficient. Initially, it was planned to expand the existing integrated terminal by 180 meters on both sides, by constructing an additional 17,920 m² (192,900 sq ft) area to increase the passenger handling capacity to 1,075 peak-hour passengers, but later, the Ministry of Civil Aviation initiated the construction of a new two-level passenger terminal at a cost of Rs. 951 crore.

The students interacted with the officials and got clarified their doubts. After field visit, the students started at 1.30 p.m., had their lunch in Tiruchirappalli at 2.00 p.m. and reached Natham at 4.30 p.m.

Outcome:

Students got more technical information to enhance their knowledge on construction of airport components.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

INDUSTRIAL VISIT SUMMARY REPORT

The second- and third-year students of Computer Science and Engineering from NPR college of Engineering and Technology has visited the company C3 Technologies, Coimbatore on 17.03.2023. This industrial visit provided students an insight into the real working environment, machines, systems, and interact with highly trained and experienced personnel. The objective behind this industrial visit was to make the student from fresher to industry – ready professional. During the industry visit to C3 Technologies in Coimbatore, we had the opportunity to witness firsthand the innovative processes and technologies employed by the company. The visit provided valuable insights into their operations, including their manufacturing techniques, quality control measures, and research and development initiatives. Interactions with the company's experts shed light on their strategic approach to staying competitive in the market. The experience not only broadened our understanding of the technological landscape but also inspired us to explore similar avenues in our own endeavors. The academic education of the college makes the student technically sound but the students are unable to think out of the box. A quality to think differently and innovatively is what most of the companies required. This industrial visit made as a self-confidence booster for the mental and emotional state of students. This industrial visit was executed successfully and majority of the students took active part in all the sessions of the visit. As per our observations, we could find conflicting students. Our students had a wonderful experience by enlightening them about the corporate world rules, regulations, ethics and real time working scenarios.

Respected sir,

Subject: Seeking permission for one day Industrial visit to Samayanallur Substation
-Reg.

NPR College of Engineering & Technology, Natham, which is 27 kms away from Dindigul and 35 kms away from Madurai, Tamil Nadu. We are pleased to introduce ourselves as one of the premier college in the field of education. Our college recognizes the growing necessity to prepare the students from the rural and semi-urban sectors of India to be employable.

Hereby I am looking for permission to Visit the Samayanallur substation, Samayanallur for the purpose of Industrial visit on 27.09.2022. The visit will be useful for Final year (15 students) & Third year (36 students) to have a good practical knowledge about Power system, Transmission & Distribution.

So Kindly grant permission for 51 students and 3 staff members on 27.09.2022 to visit the Samayanallur substation.

SUMMARY REPORT

Our 49 students and 04 faculty members of Electrical and Electronics Engineering department started our journey to the industrial visit from NPRCET at 10.00 a.m. At 11. 15 a.m., we reached Samayanallur substation. We segregated 2 batches and separately visited the substation as per the guidance of Executive Engineer of substation. After completed our visit, we finished our lunch. We started our journey to NPRCET then reached at 3.50 p.m.

The students visited the 230 kv transmission line from different place as input to substation and 110 kv as output to customers during the visit and also visited the substation and the unit like input line, busbar, feeders, breaker point, transformer and output line. The students asked question and got the valuable answers from the Executive Engineer. Overall, transmission and distribution system, Power system analysis, and operation control systems are learned by the students during this visit.

OUTCOME:

Students are learned about SCADA system with live monitoring from the substation.

Respected sir,

Sub: Seeking Permission for Industrial visit – reg.

Warm Greetings,

NPR Group of Colleges, Natham, which is 27 kms away from Dindigul and 35 kms away from Madurai, Tamil Nadu. We are pleased to introduce ourselves as one of the premier group of colleges in the field of education. The campus is spread over 93 acres of lush green environment with lots of green cover and pristine surroundings. Our college recognizes the growing necessity to prepare the students from the rural and semi-urban sectors of India to be employable.

We are providing Undergraduate courses in Mechanical Engineering, Civil Engineering, Computer Science & Engineering, Electronics & Communication Engineering and Electrical & Electronics and Post Graduate courses Structural Engineering and Master of Business Administration and has a track record of outstanding performances of its pass-outs from different domains.

I would like to share that we suggest to have this visit with your organization on 10th March'2023 there would be a total of 32 students (II year Mechanical) accompanied by a faculty member from our college. The visit is aimed at enhancing their knowledge. We request you to permit us to take a round of the entire Reconditioning unit and show the tasks handled in different departments to our students. I hope you allow us the opportunity to visit your Unit and meet your skilled staff and anticipate a positive response from your end.

Thanking you,

With Regards
