3D PRINTING INTERNSHIP PROGRAM

Design | Scaling | Create

THIS CERTIFICATE IS PROUDLY PRESENTED TO

ASWIN M

The proposed event is a 30 days 3D Printing internship program covering the basics of 3D Printing, 3D Scanning & related topics with some engaging hand-on sessions in between. The takeaway would be a high level overview of 3D Printing and the right amount of technical aspects to get started with 3D Printing.

R. PUSHPA PRIYADHARSHINI

The proposed event is a 30 days 3D Printing internship program covering the basics of 3D Printing, 3D Scanning & related topics with some engaging hand-on sessions in between. The takeaway would be a high level overview of 3D Printing and the right amount of technical aspects to get started with 3D Printing.

OASIS INFOBYTE

INTERNSHIP OFFER LETTER

Dear THIYAGARAJAN S

12/20/2022

We are delighted to welcome you for the Internship of Web Development and Designing in our fellowship. This internship is observed by Oasis Infobyte as being a learning opportunity for you.

In essence, your Internship will embrace orientation and give emphasis on learning new skills with a deeper understanding of concepts through hands-on application of the knowledge you gained as an intern. Our team is confident that you will acknowledge your obligation to perform all work allocated to you to the best of your ability within lawful and reasonable direction given to you.

We look forward to a worthwhile and fruitful association which will make you equipped for future projects. Wishing you the most enjoyable and truly meaningful internship program experience.

Thank you
Team Oasis Infobyte

BALAJI M

has successfully completed the online, non-credit Specialization

Data Analysis and Visualization Foundations

Earners of this certificate understand the core principles of data analysis and visualization. They can explain the modern data ecosystem, and are familiar with using some of the tools and technologies in this ecosystem. They have demonstrated hands-on experience working with spreadsheets like Excel, loading different data sets, and employing techniques like summarization, sorting, filtering, and creating pivot tables. Learners completing this specialization will utilize Excel spreadsheets to create the many different types of data visualizations such as line plots, bar charts, pie charts, and describe when to use them. They have also created advanced visualizations such as treemaps, scatter charts, histograms, and map charts, and built interactive dashboards using IBM Cognos Analytics.

- Introduction to Data Analytics
- Excel Basics for Data Analysis
